Delivered for you by:

THE GREAT NORTH RAIL PROJECT

Buses replace trains through Bolton 12 – 27 August

As detailed in this timetable, buses will be replacing trains through Bolton. On Mondays-Fridays, passengers travelling to/from stations Clitheroe to Ramsgreave & Wilpshire have the option to travel via Bolton using the connecting bus services provided to/from Manchester or, alternatively, change at Blackburn for direct trains to Manchester Victoria via an alternative route extending overall journey times by a few minutes.

On Saturdays and Sundays direct train services operate between Clitheroe, Blackburn and Manchester Victoria via an alternative route.

The Great North Rail Project

The Great North Rail Project is a vast programme of improvements to transform train travel for customers in the North. It will enable hundreds more trains to run each day: more trains with more seats, running more quickly and reliably. Rail customers are the immediate beneficiaries of improved transport lines, or connectivity, between towns and cities in the North. As new opportunities, including jobs, are created and businesses get access to a greater pool of talent, local communities and the wider regional economy will feel the knock-on benefits of the Great North Rail Project.

What does this mean for you?

The railway is being upgraded between Manchester and Preston via Bolton as part of the £1bn+ Great North Rail Project, helping deliver faster, greener, quieter and more reliable journeys.

A huge amount of work has already been carried out on the route between Manchester and Preston and we are grateful to passengers for their ongoing patience while we build a better railway in the North West.

To date over 20 bridges have been reconstructed to

make space for new overhead equipment that is now being installed.

Bolton station upgrade

Work taking place at Bolton station is preparing the tracks, platforms and canopies for faster, more frequent electric train services. The work includes reinstating platform 5, which has been out of use since the early 1990s, to allow more trains to run between Manchester and Preston. The existing platforms and canopies need adjusting to accommodate a new track alignment through the station, as well as new overhead equipment which will provide power to electric trains.

What's happening between 12 – 27 August 2017

For 16 days, Network Rail will continue work to upgrade Bolton station in time for electric trains to run. This work will involve restoring an unused platform, modifying existing platforms and canopies as well as remodelling track, upgrading signalling, installing overhead line equipment and building a new footbridge.

Keeping you moving

The improvement work has been planned to cause as little disruption on the railway as possible and we are committed to keeping passengers moving. As a result of the work, the majority of train services will not run in or out of Bolton until the first service on Monday 28 August 2017. However, trains will still run from Bolton to Blackburn and Clitheroe on weekdays.

Keep up to date with the latest journey information and check nationalrail.co.uk before you travel.

Whilst every care has been taken to ensure accuracy of the information in this timetable, we can accept no liability for any inaccuracies and reserve the right to change information without further notice. Visit our website for the most up to date timetables and check before you travel.
